SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)).

This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

Subpart I specifies several paperwork requirements. The following describes the information collection requirements in subpart I and addresses who will use the information.

Hazard Assessment and Verification (§1910.132(d))

Paragraph (d)(1) requires employers to perform a hazard assessment of the workplace to determine if hazards are present, or likely to be present, that make the use of PPE necessary. Where such hazards are present, employers must communicate PPE selection decisions to each affected employee (paragraph (d)(1)(ii)).

Paragraph (d)(2) requires employers to certify in writing that they have performed the hazard assessment. The certification must include the date and the person certifying

that the hazard assessment was conducted, and the identification of the workplace evaluated (area or location).

The hazard assessment assures that potential workplace hazards necessitating PPE use have been identified and that the PPE selected is appropriate for those hazards and the affected employees. The required certification of the hazard assessment verifies that the required hazard assessment was conducted.

The standards on PPE protection for the eyes and face (29 CFR 1910.133), head (29 CFR 1910.135), feet (29 CFR 1910.136), and hands (29 CFR 1910.138) do not contain any separate information collection requirements.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Personal Protective Equipment (PPE) Standard for General Industry (29 CFR part 1910, subpart I). OSHA is proposing to decrease the burden hours in the currently approved information collection request from 1,696,991 hours to 1,366,521 hours, a difference of 330,470 hours. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Personal Protective Equipment (PPE) for General Industry (29 CFR part 1910, subpart I).

OMB Control Number: 1218-0205.

Affected Public: Business or other for-profits; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 3,500,000.

Frequency of Response: On occasion.

Average Time per Response: Varies from one hour to generate and maintain records to 29 hours to perform a hazard assessment.

Estimated Total Burden Hours: 1,366,521.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation — Submission of Comments on this Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2009-0028). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled “ADDRESSES”). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this Web site.

All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is

available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.
